# Luminar 3 vs. On1 Raw 2019.6

August 14, 2019

Why do I care?

- ✓ Adobe Lightroom is now subscription only
  - Either CC or Classic CC are $9.99/mo
- ✓ Apple Photos is insufficient for my needs
  - Photos are kept in proprietary library

My Conclusions

✓ Both offer excellent alternatives to money subscription fees

- Need to be willing to learn new program

✓ Luminar is more for casual user who wants to be led by app designers

✓ On1 follows PS/LR pattern and is feature rich but is a very different UI
