Spreadsheet History

✓ VisiCalc on Apple II introduced in 1979

- Dan Brinklin from Harvard

- Fit into 16K for 6502

✓ Multiplan

- First released for Mac in 1982

✓ Lotus 1-2-3

✓ WingZ/Claris Resolve 1988-90's

✓ Microsoft Excel

- First introduce in 1985. Two year before PC version

- VBA introduce in 1995 in v5.0

- VBA removed in v2008, but returned in v2011

- Office 2016 for Mac brings the Mac version closer to parity with its Windows cousin, harmonizing many of the reporting and high-level developer functions, while bringing the ribbon and styling into line with its PC counterpart.

  - ✦ Work in progress…
